tie@madebytie.com

SUMMARY

Product designer and design leader with 18 years shipping digital products end to end. My range spans brand systems, UI and website design, development, and AI-native product work, and I partner with founders, executives, engineers, and product teams to set direction and ship. Four production-grade platforms designed and built solo; 169+ client projects delivered across 18 years.

CORE STRENGTHS

- Product Strategy & Direction
- Product Design & UX
- Design Systems & Brand
- Cross-Functional Leadership
- Stakeholder Alignment
- AI-Native Product Strategy

EXPERIENCE

Founder & Lead Product Designer, made by tie

Boise, ID · Mar 2025 – Present

Independent product studio focused on AI-native software and platform design.

- Led strategy, product design, platform architecture, and AI integration across four production-grade platforms, owning the full lifecycle from concept through deployment
- Built products that replace several separate tools with one connected system, designed from the data model up

Scope Architect **LAUNCHED 2026**

Mission control for building with AI: turns an idea into an agent-ready plan, hands work to coding agents over MCP, with cloud sandbox execution and full task, token, and PR visibility.

Vizon OS **PRIVATE BETA · IN USE WITH CLIENT TEAMS**

Multi-tenant AI-native business OS: CRM, projects, collaborative docs, messaging, workflows, and AI agents in one data model.

Capsule **PRIVATE BETA**

Agency operating system: AI scoping, proposals, e-sign, project management, and client portals in one platform.

LoreTorch **LAUNCHING 2026**

Virtual tabletop with an AI game master: live multiplayer state and real-time session orchestration.

Founder & Principal Designer, Capsule (launch studio)

Las Vegas, NV · Sep 2019 – Aug 2025

Product design and launch studio for startups and growth-stage companies.

- Partnered directly with founders, executives, and leadership teams to bring products and brands to market on tight timelines
- Wound down the studio in 2025 as founder products went full-time; its operations became the blueprint for Capsule, the agency OS (above)

Selected clients

- Bitmain / BCH Devcon: global hackathon brand, website, and growth systems, 0→launch in 2 weeks
- Permissionless Ventures: \$50M VC fund brand and website in 3 weeks
- Windward Tech District: city-scale tech ecosystem brand and launch platform

IPG

2016 – 2017

Web Design & Developer (consulting) · 6 months

- Led the corporate website redesign end to end, aligning executives, department leads, and the marketing team from discovery through launch

Designer, Marketing Team (full-time) · 1 year

- Hired full-time following the consulting engagement; owned internal design systems, internal and client-facing product UI, and design for sales and event materials across departments

Founder & Product Designer, aPage

2017 – Sep 2019

Product venture run concurrently with Avolve Digital. One-page website system for startups to validate product-market fit before investing in a full website build.

Founder & Design Lead, Avolve Digital

Jan 2012 – Sep 2019

Branding, website design and development, and growth and sales systems for startups, venture-backed companies, and global brands.

Freelance Web & Brand Designer

2008 – 2012

Independent client work from age 18: brand identities and websites for small businesses. The start of 18 years working directly with clients.
