SUMMARY

Founding designer and AI product builder with 18 years taking ideas to production. My range runs end to end: brand systems, UI and website design, front-end and full-stack development, and AI-orchestrated product work. As a founder I've designed and launched four production-grade 0→1 platforms on my own, brand through deployment, plus 169+ client projects across 18 years.

FOUNDER PRODUCTS

Founder & Lead Product Designer, made by tie

Boise, ID · Mar 2025 – Present

Independent product studio. Designed and shipped four production platforms solo, owning brand, product design, platform design, and AI-orchestrated development.

Scope Architect **LAUNCHED 2026**

Mission control for building with AI. Turns an idea into an agent-ready plan, hands work to coding agents over MCP, and keeps every task, token, and PR visible through cloud sandbox execution.

Stack: Next.js, React, TypeScript, OpenAI, Gemini, Codex, MCP, Vercel AI SDK, OAuth, cloud VM sandboxes, Zod

Vizon OS **PRIVATE BETA · IN USE WITH CLIENT TEAMS**

Multi-tenant AI-native business OS. Unifies CRM, projects, collaborative docs, real-time messaging, workflows, and AI agents in one data model.

Stack: Next.js, React, TypeScript, Supabase, PostgreSQL, OpenAI, Anthropic, Gemini, Vercel AI SDK, LiveKit, TipTap

Capsule **PRIVATE BETA**

Agency operating system built from 18 years of client delivery. Consolidates AI scoping, proposals, e-sign, project management, and client portals into one system.

Stack: Next.js, React, TypeScript, Supabase, OpenAI, Anthropic, LiveKit, TipTap, Stripe

LoreTorch **LAUNCHING 2026**

Virtual tabletop with an AI game master. Live multiplayer state, AI-driven world-building, and real-time session orchestration.

Stack: Next.js, React, TypeScript, Supabase, OpenAI, Anthropic, LiveKit

EXPERIENCE

Founder & Principal Designer, Capsule (launch studio)

Las Vegas, NV · Sep 2019 – Aug 2025

Launch services studio for startups and SMBs: brand, website, and product launches.

- Partnered directly with founders, executives, and leadership teams to bring products and brands to market on tight timelines
- Wound down the studio in 2025 as founder products went full-time; its operations became the blueprint for Capsule, the agency OS (above)

Web Design & Developer (consulting) · 6 months

- Led the corporate website redesign end to end, aligning executives, department leads, and the marketing team from discovery through launch

Designer, Marketing Team (full-time) · 1 year

- Hired full-time following the consulting engagement; owned internal design systems, internal and client-facing product UI, and design for sales and event materials across departments

Founder & Product Designer, aPage

2017 – Sep 2019

Product venture run concurrently with Avolve Digital. One-page website system for startups to validate product-market fit before investing in a full website build. Designed the product, brand, and template system.

Founder & Design Lead, Avolve Digital

Jan 2012 – Sep 2019

Branding, website design and development, and growth and sales systems for startups, venture-backed companies, and global brands.

- Bitmain / BCH Devcon: global hackathon brand, website, and growth systems, 0→launch in 2 weeks
- Permissionless Ventures: \$50M VC fund brand and website in 3 weeks
- Windward Tech District: city-scale tech ecosystem brand and launch platform

Freelance Web & Brand Designer

2008 – 2012

Independent client work from age 18: brand identities and websites for small businesses. The start of 18 years working directly with clients.
