

# TIE LOVE

Lead Product Designer | AI-Native Products | 0→1 Systems

Boise, ID · Open to remote & relocation  
madebytie.com/hire · linkedin.com/in/tielove  
tie@madebytie.com

## SUMMARY

Product designer and design leader with 18 years shipping digital products end to end. I partner with founders, executives, engineers, and product teams to define direction, craft the experience, and build scalable design systems — and I bring founder-level ownership that ships faster and cuts design-to-engineering friction. Four production-grade platforms designed and built solo; 169+ client projects delivered across 18 years.

## CORE STRENGTHS

- Product Strategy & Direction
- Product Design & UX
- Design Systems & Brand
- Cross-Functional Leadership
- Stakeholder Alignment
- AI-Native Product Strategy

## EXPERIENCE

### Founder & Lead Product Designer — made by tie

Boise, ID · Mar 2025 – Present

Independent product studio focused on AI-native software and platform design.

- Led strategy, product design, platform architecture, and AI integration across four production-grade platforms, owning the full lifecycle from concept through deployment
- Built systems that reduce operational complexity and accelerate execution — unifying fragmented workflows into coherent, AI-assisted products

#### Scope Architect **LAUNCHED 2026**

Mission control for building with AI — turns an idea into an agent-ready plan, hands work to coding agents over MCP, with cloud sandbox execution and full task, token, and PR visibility.

#### Vizon OS **PRIVATE BETA · IN USE WITH CLIENT TEAMS**

Multi-tenant AI-native business OS — CRM, projects, collaborative docs, messaging, workflows, and AI agents in one data model.

#### Capsule **PRIVATE BETA**

Agency operating system — AI scoping, proposals, e-sign, project management, and client portals in one platform.

#### LoreTorch **LAUNCHING 2026**

Virtual tabletop with an AI game master — live multiplayer state and real-time session orchestration.

## Founder & Principal Designer — Capsule (launch studio)

Las Vegas, NV · Sep 2019 – Aug 2025

Product design and launch studio for startups and growth-stage companies.

- Partnered directly with founders, executives, and leadership teams to bring products and brands to market under compressed timelines
- Wound down the studio in 2025 as founder products went full-time; its operations became the blueprint for Capsule, the agency OS (above)

### Selected clients

- Bitmain / BCH Devcon — global hackathon brand, site, and growth systems, 0→launch in 2 weeks
- Permissionless Ventures — \$50M VC fund brand and marketing site in 3 weeks
- Windward Tech District — city-scale tech ecosystem brand and launch platform

## IPG

2016 – 2017

### Web Design & Developer (consulting) · 6 months

- Led the corporate website redesign end to end — aligning executives, department leads, and the marketing team from discovery through launch

### Designer, Marketing Team (full-time) · 1 year

- Hired full-time following the consulting engagement; owned internal design systems, internal and client-facing product UI, and design for sales and event materials across departments

## Founder & Product Designer — aPage

2017 – Sep 2019

Product venture run concurrently with Avolve Digital. One-page website system for startups to validate product-market fit before investing in a full site build.

## Founder & Design Lead — Avolve Digital

Jan 2012 – Sep 2019

Growth-driven design and inbound marketing agency: branding, web design, and digital marketing for startups and global brands.

## Freelance Web & Brand Designer

2008 – 2012

Independent client work from age 18: brand identities and websites for small businesses — the start of 18 years working directly with clients.
