18 YEARS IN DESIGN & PRODUCT	179+ CLIENT PROJECTS DELIVERED	4 AI PLATFORMS BUILT & LIVE
---------------------------------	-----------------------------------	--------------------------------

SUMMARY

Product designer and design leader with 18 years shipping digital products end to end. I partner with founders, executives, engineers, and product teams to set direction and ship. Four production-grade AI platforms designed, built, and launched solo through AI-orchestrated development; 179+ client projects delivered for organizations from venture-backed startups to aviation, precision manufacturing, and city government.

The design craft to own the whole product surface, the technical fluency to work directly with engineers, and the strategic range to set direction with founders and executives.

CORE STRENGTHS

- Product Strategy & Direction
- Product Design & UX
- Design Systems & Brand
- O→1 Product Ownership
- Platform & Systems Design
- AI-Native Product Strategy
- AI-Orchestrated Development
- Executive Communication
- Cross-Functional Leadership

EXPERIENCE

Founder & Lead Product Designer, made by tie

Boise, ID · Mar 2025 – Present

Independent product studio focused on AI-native software and platform design.

- Led strategy, product design, platform architecture, and AI integration across four production-grade platforms, owning the full lifecycle from concept through deployment
- Built products that replace several separate tools with one connected system, designed from the data model up

Scope Architect LAUNCHED 2026
Mission control for building with AI: turns an idea into an agent-ready plan, hands work to coding agents over MCP, with cloud sandbox execution and full task, token, and PR visibility.

Vizon OS PRIVATE BETA · IN USE WITH CLIENT TEAMS
Multi-tenant AI-native business OS: CRM, projects, collaborative docs, messaging, workflows, and AI agents in one data model.

Capsule PRIVATE BETA
Agency operating system: AI scoping, proposals, e-sign, project management, and client portals in one platform.

LoreTorch LAUNCHING 2026
Virtual tabletop with an AI game master: live multiplayer state and real-time session orchestration.

Founder & Principal Designer, Capsule (launch studio)

Las Vegas, NV · Sep 2019 – Aug 2025

Product design and launch studio for startups and growth-stage companies.

- Partnered directly with founders, executives, and leadership teams to bring products and brands to market on tight timelines
- Wound down the studio in 2025 as founder products went full-time; its operations became the blueprint for Capsule, the agency OS (above)

IPG

2016 – 2017

Web Design & Developer (consulting) · 6 months

- Led the corporate website redesign end to end, aligning executives, department leads, and the marketing team from discovery through launch

Designer, Marketing Team (full-time) · 1 year

- Hired full-time following the consulting engagement; owned internal design systems, internal and client-facing product UI, and design for sales and event materials across departments

Founder & Product Designer, aPage

2017 – Sep 2019

Product venture run concurrently with Avolve Digital. One-page website system for startups to validate product-market fit before investing in a full website build.

Founder & Design Lead, Avolve Digital

Jan 2012 – Sep 2019

Branding, website design and development, and growth and sales systems for startups, venture-backed companies, and global brands.

Freelance Web & Brand Designer

2008 – 2012

Independent client work from age 18: brand identities and websites for small businesses. The start of 18 years working directly with clients.

SELECTED CLIENTS & ORGANIZATIONS

- **CI² Aviation** — FAA award-winning aerospace & IT firm operating across 150+ airports. Ten-year partnership: two full website builds, digital strategy, federal proposal and tradeshow design
- **Bitmain** — BCH Devcon global hackathon (zero to launch in 2 weeks) and Permissionless Ventures (\$50M VC fund brand and website in 3 weeks)
- **City of Alpharetta** — eight-year relationship: Windward Tech District, Taste of Alpharetta, Wire & Wood Songwriters Festival, and other city initiatives
- **Stanlok** — precision manufacturer trusted by moon missions and military aircraft programs; decade-long client relationship
- **Servco** — brand and B2B ecommerce for a national wholesale warehouse equipment leader, in business since 1987
